Finding Organic Solutions for BMSB

Welcome to the Organic Management of BMSB Website/Wiki

Posted on February 8, 2011 by admin

This website is maintained by [Dr. Matt Grieshop](#) —the organic pest management specialist at Michigan State University— and [Dr. Anne Nielsen](#), a post doctoral research associate at the MSU Organic Pest Management lab. The purpose of this website is to provide organic farmers and researchers with up to date information on the ongoing efforts to develop organic management plans for the brown marmorated stink bug. The website is currently under construction and many new features will be added.

Immediate Needs

- Additional regional contacts for growers
- Field sampling plans for field crops and vegetable crops
- Suggestions for trap crops and grower collaborators
- Potential collaborators for phone and in person meetings
